COMMUNITY CHURCH

October 1, 2014

To Our Friends at Legends Cleaners,

Our hope as a church is that we would matter - that people in the community would miss us if we weren't here. Our hope is that we would be a blessing to people in this community, regardless of their faith.

The response from people when they heard that MPCC was severely flooded has been remarkable. The people in this community have shown US what it means to matter - to be a blessing to people regardless of faith backgrounds.

Thank you so much for stepping up and helping us in our time of need. Thank you for modeling what it means to be a great neighbor. We are all the more inspired to do the same!

Gratefully,

Allan Fuller  
Senior Pastor
